Learn how to edit ERD shapes

*To **manually customize this ERD**:*

1. *Double-click on any text in an entity shape and **add/edit text** by typing.*
2. *Click on an entity shape and **toggle the amount of fields** using the advanced shape bar at the top of the canvas.*
3. ***Add and remove lines** to show relationships between entities.*
4. *To **update cardinality**, click on a line and then click "Endpoint" on the properties bar at the top of the canvas.*

*To **automatically create your own ERD**:*

1. *Click "Import Data" in the Entity Relationship shape library to the left of the canvas.*
