PROJECTS EXPERIENCE.

AfyaData - http://afyadata.sacids.org
Afyadata is a tool that analyzes all the data collected from the field and intelligently sends feedback to the data collector and sends an alert to higher authority officials if any abnormal pattern is discovered in the data collected, this tool provides a graphical user interface for the involved health stakeholders to analyze and visualize data collected via Afyadata mobile app for android.
The project is owned by ***Sacids Foundation for One Health / National Institute of Medical Research.***

One Health Platform – http://154.118.228.237
This is early warning platform which involves WhatsApp Chatbot, SMS and media scanning as the tool for data collection. The collected data processed and analyzed through One Health Dashboard which accessed by Health, Agricultural and Livestock's sectors stakeholders for decision making.
Project owned by ***Prime Minister's Office in Tanzania.***

Mass Drug Administration Platform - https://mda.ntdcp.go.tz
This is a platform for daily monitoring of drug usage under Neglected Tropical Diseases Control Program. Data collected using Government USSD block and analyzed with Python libraries.
The project owned by ***Ministry of Health/RTI International.***

Mobile Kilimo – http://exts.kilimo.go.tz
Mobile Agriculture (M-Agriculture) is a mobile technology that aims to help farmers, breeders, and fishermen through extension services. This will enable them to reach the markets and especially the buyers of their products and agricultural products without the hassle of exporting the products to the market.
The project is owned by the ***Ministry of Agriculture (MOA)***

Tanzania Horticulture Association (TARIC) – https://taric.co.tz
This is a web and mobile application to disseminate agriculture information and market prices to farmers and stakeholders.
The project is owned by ***Tanzania Horticulture Association (TAHA)***

PUBLICATION
Socio-Ecological Systems Analysis and Health System Readiness in Responding to Dengue Epidemics in Ilala and Kinondoni Districts, Tanzania. 2022
L Mboera, C Sindato, I Mremi, S Rumisha, J George, **R Ngolongolo**, G Misinzo, E.D. Karimuribo, M.M. Rweyemamu, N Haider.

PROGRAMMING, DATABASE, AND DESIGN SKILLS

- Programming Languages (PHP, Python, JavaScript)
- Frameworks (Laravel, Django, FastAPI)
- Python Libraries (Numpy, Pandas, Matplotlib, Seaborn, Scikit-learn Tensorflow, Keras)
- Frontend Libraries (React JS)
